SENIOR ENDPOINT PLATFORM ENGINEER

Lifecycle-Driven Enterprise Endpoint Architecture | Automation | Governance | Observability

Senior endpoint engineering leader with 15+ years in enterprise IT, specializing in scalable device lifecycle architecture across ConfigMgr, Intune, and Microsoft security ecosystems. Transitioning from execution-focused engineering to platform-level architectural design—emphasizing automation, resilience, telemetry-driven maturity and governance alignment.

Design philosophy. Build once. Instrument everything. Automate relentlessly.

PROFESSIONAL EXPERIENCE

Senior Endpoint Platform Engineer

2022 – Present

Fortune 500 Enterprise Environment.

- Designed and implemented enterprise OSD observability framework (OSDMonitor.exe), introducing phase-aware telemetry and self-healing monitoring into task sequences.
- Engineered event-driven recovery model using scheduled task automation and process termination auditing to prevent client desktop deployment failures.
- Built Azure Log Analytics ingestion pipeline and real-time Azure Workbooks to drive provisioning reliability $\approx 25\text{--}30\%$.
- Architected hardware lifecycle governance framework integrating driver version control, BIOS auditing and compliance modeling.
- Automated HP driver acquisition via dynamic HTML parsing and SoftPaq resolution without CMSL cost.
- Standardized task sequences modularly and hardware abstraction layers to reduce configuration drift.

Impact: Shifted OS deployment from reactive troubleshooting to a measurable, reliability-engineered provisioning system.

SCCM / Intune Administrator

2019 – 2022

Gulfstream Aerospace Corporation, Savannah, GA

- Managed enterprise co-management strategy across ConfigMgr & Intune; upgraded SCCM/MECM console and clients to latest versions.
- Engineered zero-day patch automations to accelerate vulnerability remediation; deployed zero-day patches to all endpoints to mitigate threats.
- Governed Win32 package lifecycle and built task sequences for patches, software, and new releases using MECM/SCCM.
- Configured Azure AD Connect sync, conditional access policies, DLP, and identity protection functionality.
- Implemented enterprise change to prevent endpoints from auto-updating to latest Windows versions.

Impact: Standardized endpoint governance across hybrid ConfigMgr/Intune estate, reducing provisioning inconsistencies.

Senior Systems Engineer

2017 – 2018

Publix Corporation, Lakeland, FL

- Provided guidance and on-site support for retail and corporate users across hardware and software installation.
- Designed PowerShell scripts for administrator automation; reviewed Azure AD sign-in and provisioning logs.
- Managed and configured iOS, Android, and Windows devices in Intune/SOTI; created virtual machines within Azure.

Senior Deskside Analyst

2014 – 2017

Gulfstream Aerospace Corporation, Savannah, GA

- Installed, configured, and monitored deskside systems using SCCM and SCCM Client Center.
- Administered SCCM application deployment, patch management, and analyzed CCM logs for errors.
- Documented, packaged, tested, and distributed applications in accordance with STIG DISA DOD standards.

IT Specialist

2012 – 2014

Effingham County, Springfield, GA

- Administered user accounts via PowerShell in Active Directory, Exchange 2010, and VOIP systems.
- Developed SCCM strategies for upgrading 500+ users to Windows 7 while capturing and restoring user data.
- Packaged and deployed applications using PowerShell, SCCM, and GPO; managed DNS and AD replication topology.

CORE COMPETENCIES

- Endpoint Platform Architecture
- ConfigMgr (SCCM/MECM)
- Intune & Co-Management
- Windows Autopilot
- Conditional Access / Device Logic
- Microsoft Defender for Endpoint
- Threat Exposure Modeling
- Azure Log Analytics & Workbooks
- PowerShell Automation
- Driver & Firmware Lifecycle Governance
- Deployment Telemetry Engineering
- Platform Observability Design
- Enterprise Change Governance
- WIM Servicing & OSD Engineering

CERTIFICATIONS

AZ-305
Microsoft Certified;
Azure Solutions
Architect Expert

AZ-104
Microsoft Certified;
Azure Administrator
Associate

AZ-900
Microsoft Certified;
Azure Fundamentals

EDUCATION

Armstrong Atlantic State University

Savannah, GA

B.S. Information Technology

117 Credit Hours — Senior Standing

OPERATING SKILLS

- Active Directory / Azure AD
- PowerShell Scripting
- Software Packaging (Win32/MSI)
- GPO Design & Documentation
- MDT / WinPE / DISM
- Pivot Tables & Reporting
- iOS / Android / Windows MDM
